

HELP BREAK THE SIEGE OF GAZA

Gaza lives on the brink of humanitarian catastrophe in a prison controlled by Israeli land, sea and air forces. Israel says Gaza is no longer occupied, yet it denies access to jobs, travel, visitors, commerce, education and medical care.

This summer, a group of Palestinians, Israelis and Internationals sail to Gaza. We will challenge Israel's policy of genocide against the Palestinians while saying to the world that they are free.

We ask that you join us or donate to our project. Help Palestine control its own borders and the people to live and work in peace.

May 2008 marks the 60-year anniversary of the Nakba, "the catastrophe", when the overwhelming majority of Palestinians were forcibly evicted from their ancestral homeland to create the state of Israel. Sailing to Gaza will bring attention to the plight of the Palestinians in Gaza as well as the 60-year exile of 700,000 Palestinians and their children.
